THE FORTY-FIFTH ANNUAL REPORT
OF THE
BOARD OF MANAGERS
OF
ST. LUKE'S HOSPITAL,
FROM
OCTOBER 1, 1902, TO SEPTEMBER 30, 1903.

The work of the year shows an increase in Hospital days of 1,647 over that of last year; but a decrease in patients treated of 21. There was an increase in visits made to the Out Patient Department of 4,799.

The expenses of the year have been \$32,166.81 in excess of the income.

The portions of the Hospital open for the reception of patients are generally overcrowded. This year, the number of persons applying for admission, and refused for lack of room has been larger than ever before. Four wards still stand vacant, and the management cannot see its way to open them while the large discrepancy between the annual income and the annual expense continues.

It is noticeable that whereas large donations to Universities and Colleges are frequent, those to charitable institutions are rare. The minds of persons contemplating beneficent gifts seem to tend towards educational objects; but can it not be argued and well maintained that while the chief functions of a Hospital are eleemosynary and remedial, the educational work is a very large factor, and one from which the public derives great and direct benefit? Each year the Hospital sends forth physicians and surgeons

who have gained within its walls, knowledge and experience, which could hardly be obtained in a life-time elsewhere. The trained nurse, whose presence is desired in every household, in which sickness is found, is educated by the Hospital at an expense which is not inconsiderable. In the Laboratory, teaching in pathology and bacteriology is going on of a character which adds greatly to the world's knowledge of disease and the science of healing. And thus it is we feel that the Hospital has its legitimate plea to lay before those who are able and willing to give to the cause of education as well as to those whose aim is the care and comfort of the sick.

The erection of a Pavilion for private patients has been referred to in our annual Report for several years. At no time has it been lost sight of. The necessity of such a Pavilion appears more urgent each year, but the requirements of the Hospital for current expenses have been such, the cost of building so exorbitant, and the labor situation so uncertain, that nothing towards construction has been done beyond the preparation and consideration of plans.

During the year the gifts and legacies were as follows:

Tax refunded on legacy of A. M. Proudfit	\$800 00
Final payment on account of legacy of Charles H. Contoit	69 82
Legacy of Mrs. Mary J. Walker	96,775 06
Additional payment on account of legacy of Andrew J. Garvey	583 32
Additional payment on account of legacy of James D. Sarven	30,156 34
Donation from Trained Nurses' United Aid Society	727 27
Fifth instalment on account of Rockland County Bed	50 00
Legacy of Samuel D. Babcock	19,050 00
Sixth instalment on account of Rockland County bed	75 00

Additional payment on account of bed endowed by Mrs. Margaret Zimmerman, August 25, 1874	2,000 00
One bed endowed in perpetuity by J. Henry Smith, in memory of his relative, the late George Smith, Esq., of the Reform Club, London	7,500 00
One bed endowed in perpetuity by Miss Isabel G. Davis in memory of her brother, Samuel C. H. Davis	7,500 00
One bed endowed in perpetuity by bequest of William H. Tillinghast, to be known as the "Phoebe Wyckoff Tillinghast Bed"	5,000 00

Mr. Woodbury G. Langdon, owing to ill-health, renewed on September 28, a former tender of resignation as a Manager of the Hospital. Mr. Langdon had rendered estimable service on this Board from October, 1875, to November, 1883, and from April, 1895, to the date of his resignation. The resignation was accepted with very deep regret.

On December, 29th, Dr. Francis W. Murray resigned the position of attending Surgeon to the Hospital. Dr. Murray's valuable service in this capacity had covered a period of fifteen years. His resignation was accepted with much regret and he was immediately elected to the Staff of Consulting Surgeons.

Dr. Joseph A. Blake severed, on September 28th, his connection with the Hospital as Attending Surgeon. Dr. Blake was appointed to this position in 1896. His services were highly valued by the Board and his resignation was reluctantly accepted.

On February 6th, through death, the Corporation lost a most efficient and respected House Officer, Mr. Peter Rundquist. For 35 years he served the Hospital as Chief Engineer with marked ability and unswerving fidelity. His many years of service to the institution were keenly appreciated by the Board.

The Attending and Consulting Physicians and Surgeons have, as hitherto, rendered their services gratuitously to ward patients, which fact we desire to acknowledge with gratitude.

By order of the Board of Managers,

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 26. The relation of the receipts to the expenditures is found in the Treasurers' Report, page 13.

The number of subscribers last year was 93.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least eight hundred thousand dollars

TO THE

General Endowment Fund

Four wards stand vacant because there is not money to open them.

Four hundred and forty-two patients were refused admission last year because of insufficient revenue

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

It is especially urged that an additional male surgical ward be opened.

Your Help is Earnestly Solicited

For benefactions needed, see next page.

For endowment of beds and rooms, see page 54.

For Century Fund, see page 15.

A Large Benefaction
Is Also Needed

For the Endowment of the Pathological
Department.

The training in obstetrics is received at the Sloane Maternity and New York Lying-In Hospitals. The course is three months at either place, four nurses being at each institution at one time so that eight nurses on our pay-roll are constantly at other institutions receiving a portion of their education which, from the nature of the service, cannot be gotten at St. Luke's.

A practical Demonstration of Nursing before the Board of Managers, the Medical Board, and invited guests was given in the Operating Room of the Hospital on the afternoon of May 9th.

The Graduating Exercises were held on the evening of May 12th, with religious services. The President of the Hospital presided. 21 nurses were graduated, and the Rev. Dr. Grosvenor, Rector of the Church of the Incarnation, delivered the address.

It is purposed in the very near future to establish at the Hospital a Registry for Nurses. By this means, physicians and the public in general can obtain graduate nurses with the utmost facility.

During the year, friends of the Training School have kindly subscribed for daily papers and periodicals for the use of pupils. The donation has been greatly appreciated by the nurses, and in this connection, it is not improper to add that the School will be deeply grateful for any gifts of books on general literature or medicine.

The Alumnæ Association has started a Fund for the endowment of a Private Room for the use of its members who may be ill. Several generous contributions to this object have already been made. It is hoped that at a Fair to be held during the winter, the fund will be largely augmented.

Applications for our graduates to become Directresses of Training Schools and Superintendents of Hospitals are being constantly received. Many of the applications meet with prompt response by our Alumnæ, but still the demand greatly outnumbers the supply. Thus it is that the Training School is doing excellent service not only for our own

Hospital, but for many other institutions in this country and foreign lands.

An expression of our gratitude is due the Medical Board for lectures delivered; the House Staff for instruction given; and the Physicians to the Training School for services rendered during the year.

Notwithstanding the unusual expenses in several items this year, such as coal, the cost of which was \$1,685 77 in excess of that of last year, general repairs to the Plant which were more than double those of last year, and the higher prices generally of food supplies, the per capita cost for patients remains the same. This is due to the fact that the number of Hospital days, both for private and ward patients, have exceeded by 560 of the former, and 1149 of the latter, the number of last year.

The wards now open for the reception of patients are generally filled to their utmost capacity; often they are overcrowded.

The Waiting List frequently numbers from 25 to 30 applicants. It is not unusual to find that by the time room is made for these patients, they have been cared for elsewhere and in some instances have passed beyond the help of human agency. It would greatly relieve the situation if an additional ward could be opened for men.

On February 6th, the official household was called upon

to mourn the death of Mr. Rundquist, the Chief Engineer. His long connection with the Hospital, 35 years, made him seem to us truly a part of St. Luke's. In the whole history of the institution no House Officer has served the Hospital as long as he. His geniality of manner, strength of character, and cheerful willingness in responding to the many calls in connection with his office, endeared him to the entire household. By his death we have sustained a very great personal and official loss.

The Isabella Heimath has, as for several years, opened its doors for the reception of our convalescents, thereby relieving the congestion of patients in the Hospital when we have so sorely needed room for others. Never have we called upon this institution and been refused.

We are also much indebted to St. Andrew's Convalescent Hospital, the home at Sea Cliff for children, and St. John's Guild for receiving patients from us during the year.

GEORGE F. CLOVER,
Superintendent.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:—

The Pastoral statistics for the year are as follows:

Baptized	6	Holy Communion:	
Confirmed	10	In Chapel	41 times
Marriages	6	In Wards	58 "
Funerals	51	In extremis . . .	36 "

Services have been held as heretofore. On Sundays in the Chapel, there has been Morning Prayer with Ante-Communion service and sermon at 10.30 o'clock, and in the afternoon Evening Prayer has been said at 4 o'clock.

The Holy Communion has been celebrated on the first Sunday in each month at 10.30 A. M., and on the third Sunday in each month at 8 A. M.

The Holy Communion has also been celebrated in one of the wards each Sunday.

On Christmas and Easter a short service has been held in each ward and the Blessed Sacrament administered to every patient desiring to receive it. The officers and employees have also had opportunity to make their Communion at 8 A. M. and 10.30 A. M.

Every morning, save Sunday, a service consisting of Scripture reading and prayers has been held in each ward.

The wards have been regularly visited by the Assistant Pastor for Christian instruction and consolation of the patients.

The young women of the Church Guild of Barnard College have received the Holy Communion in the Chapel of the Hospital on the third Sunday of each month during the college year.

The following is

The necessary funds for the maintenance of the Kindergarten in the Children's Wards were generously provided and the work was continued until June. Much interest has been manifested in our efforts to lessen the tediousness of the confinement of the little ones committed to our care, and to give

them a bit of education. With confident faith that the interest will be maintained, the Kindergarten will be immediately resumed for another year.

The Choir of Holy Trinity Church has, as for several years past, visited the Hospital shortly after Christmas and Easter to sing the Carols in the wards.

On various occasions Madame Berger has visited the wards, rendering delightful music on the zither.

These acts of kindness have been the source of much pleasure to the patients and we beg to acknowledge them with deep gratitude.

GEORGE F. CLOVER,^s
Pastor.

LIST OF SURGICAL OPERATIONS.

AMPUTATIONS.

Amputation of finger	4
of foot	1
of leg	2
at shoulder	1
of thigh	4
of thumb	1
of toes	1
	<hr/> 14

FRACTURES.

Incision and drain of compound fracture of ulna	1
Plastic for ununited fracture of radius and ulna	1
Reduction of fracture of forearm	1
of fractured nasal bones	1
of compound fracture of ulna and dislocation of radius	1
Wiring of surgical neck of femur	1
	<hr/> 6

OPERATIONS ON TENDONS AND FASCIÆ.

Excision of ganglion of wrist	1
of prepatellar bursa	1
Incision with drainage for suppurative prepatellar bursa	1
Tenoplasty	1
Tenorrhaphy	1
Tenotomy of biceps	1
for club-foot	2
of hamstring muscles	1
of tendon Achilles	4
for tubercular hip	2
	<hr/> 15

OPERATIONS ON NERVES.

Intracranial neurectomy for tic-douloureux	6
Excision of post-tibial for painful stump	1
Section of posterior divisions of 1st, 2nd and 3rd cervical nerves for torticollis	1
of spinal accessory nerve for torticollis	3
Sympathectomy for exophthalmic goitre	6
	<hr/> 17

OPERATIONS ON HERNIA.

Bassani for single inguinal	59
for double inguinal	9
Bassini-McEwen for inguinal	2

OPERATIONS ON HERNIA—Continued

Strangulated femoral	3
inguinal	3
Femoral hernia	10
Umbilical hernia	4
Ventral hernia	8
Hernia in laparotomy scar	10
	<hr/>
	108

OPERATIONS ON CONGENITAL DEFORMITIES.

Hare-lip	2
----------------	---

OPERATIONS ON MUSCLE.

Section of platysma and splenius for torticollis	1

	33

OPERATIONS ON KIDNEY.

Incision and drain of perinephritic abscess	2
Nephrectomy for renal calculus	1
for cystic kidney	1
for tubercular kidney	2
Nephrorrhaphy	13
Nephrotomy	2
for calculus	2
	<hr/>
	23

OPERATIONS ON OESOPHAGUS, RECTUM, AND ANUS.

Allingham's for hemorrhoids	20
Whitehead's for hemorrhoids	8
Clamp and cautery for hemorrhoids	15
Cautery for rectal ulcer	1
Dilatation for fissure in ano	2
for hemorrhoids	3
for stricture of rectum	1
Excision of carcinoma of rectum	1
of papilloma of rectum	1
of recurrent carcinoma in sacral scar	1
Fistula in ano	14
Ischio rectal abscess	19

OPERATIONS ON OESOPHAGUS, RECTUM AND ANUS—Continued.

Kraske's	1
Plastic for prolapse of rectum	1
Resection of rectum for carcinoma	1
	<hr/> 89

ABDOMINAL OPERATIONS.

Exploratory coeliotomy	23
Abdominal operation for persistent sinus	2
Cholecystectomy	10
for gall stones	4
Coeliotomy for acute appendicitis, with abscess	18
for acute appendicitis, catarrhal	39
for acute appendicitis, suppurative	34
for acute appendicitis, perforative	1
for chronic appendicitis	91
for gangrenous appendicitis	8
for recurrent appendicitis	3
for carcinoma of peritoneum	1
for carcinoma of uterus	1
for duodenal ulcer	1
for general peritonitis	5
for tubercular peritonitis	6
for intestinal obstruction	5
for painful abdominal adhesions	3
for pelvic abscess	4
for perforating typhoid ulcer	1
for pistol-shot wound of abdomen and intestines	1
for traumatic perforation of large intestine	1
for tubercular retro-peritoneal glands	1
Choledochotomy	3
Entero-colostomy	1
Enterorrhaphy	3
for typhoid perforation	1
Excision of caput coli	1
Gastro-enterostomy	3
Gastro-entero-enterostomy	3
Gastrostomy	1
Inguinal colostomy	8
Lumbar colostomy	1
Jejunostomy	1
Resection of Meckel's diverticulum	1
of portion of small intestine	2
Pyroplasty	2
	<hr/> 294

OPERATIONS ON BONES AND JOINTS.

Breaking up adhesions in knee-joints and fingers	2
Curettng necrosis of maxilla	2
Excision of coccyx	5
of superior maxilla	3
osteoma of femur	1
Exploratory trephining	2
Incision and drain of Antrum of Highmore	1
for acute osteomyelitis of femur	1
for arthritis of knee-joint	1
of tubercular arthritis of hip	2

OPERATIONS ON BONES AND JOINTS—Continued.

Excision of tubercular arthritis of wrist.....	I
of hip.....	I
of humerus.....	I
of infected knee.....	I
of superior maxilla.....	I
of inferior maxilla.....	I
of pericosteal abscess.....	2

ST. LUKE'S HOSPITAL, NEW YORK. (REAR VIEW.)

PROSPECTUS OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person, or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the training School.

Candidates must be from twenty-three to thirty-three years of age. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact. They must also give the names and addresses of two persons not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. The reasons for rejection are not given either to applicants for admission or probationers on duty, neither are letters addressed, personally, to the authorities of the Hospital returned.

Candidates for admission are not received in classes, but individually as the work of the Hospital requires. Classes are formed at the convenience of the school.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Accepted candidates, while awaiting a call, should prepare

themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is "Kimber's Anatomy and Physiology for Nurses."

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. Twenty-four pieces are allowed for the laundry each week.

Each probationer, who passes through two months of trial, will be admitted to the school and will then be required to sign a written agreement to remain in the school for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of nurses for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

Nurses after they are admitted to the school, are required to wear the training School uniform while on duty. In addition to board, lodging, and laundry each nurse receives ten dollars (\$10) per month during her whole course, for dress, text-books, and other expenses in connection with her work. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms belong to the school, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7.30 P.M., for day staff; 7.30 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 2 to 7.30 P.M. Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty or for care of private patients in the Hospital, as may be necessary.

Three weeks' vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the school, but may enter the following class, unless such absence exceeds four months, when she will, ipso facto, cease to be a member of the school. If readmitted, she must begin her course anew provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the school are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the school for reasons which to the Hospital may seem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications *from out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part, must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3 to \$6 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as

are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other venders are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor or Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M. Ushers will be in attendance to show visitors over the building.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

Form of Bequest.

I GIVE and bequeath to ST. LUKE'S HOSPITAL, a corporation created in the year 1850, under the laws of the State of New York, or to the Treasurer thereof for the time being, for its corporate purposes, the sum ofdollars.

Form of Devise of Real Estate.

I GIVE and devise to ST. LUKE'S HOSPITAL, a corporation created in the year 1850, under the laws of the State of New York, for its corporate purposes, all that, etc. (Here describe the property.)

NOTE.—Upon a bequest to a Hospital the State of New York now imposes a tax of 5% which is deducted from the legacy, and, consequently, in case of an endowment, the amount received by the Hospital is not the amount required for endowment, unless the Will provide that the legacy be free of tax; that is, that the tax be paid out of the residuary estate, and not deducted from the legacy.
